

# Covenant University Celebrates the Life, Times and Contributions of Steve Jobs

---

*As an ICT driven institution, Covenant University joins the world to celebrate the life, times and contributions of Steve Jobs, co-founder of Apple Incorporated.*

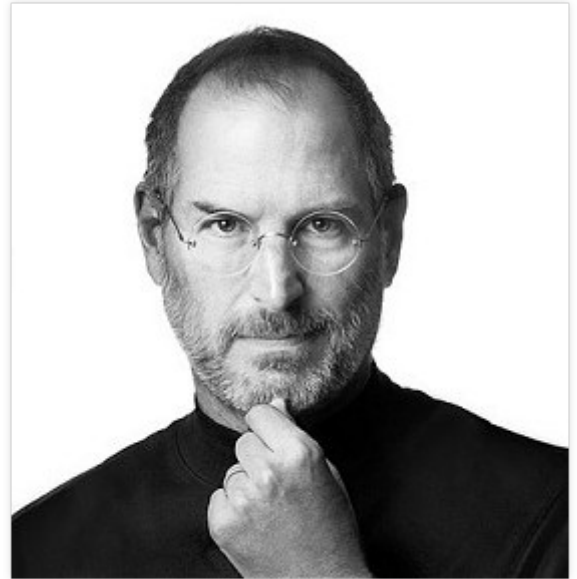

He has been one of the greatest innovators of our time. We share in the visionary perspectives of Jobs in innovating the graphic user interface of personal computing. His dreams resonate strongly with Covenant University's drive for innovation, knowledge creation and product development in line with our core value of possibility mentality.

We are optimistic that the future generations will further the legacies of Steve Jobs as Covenant University commits to raising a new generation of leaders.

Our thoughts and prayers go to his family, colleagues and his wonderful team at Apple Incorporated.

Professor Aize Obayan

Vice-Chancellor
